Objective

I am a Engineering student pursuing B.tech in CSE with specialization in AI & ML and also I am a passionate and driven web developer with a strong foundation in building dynamic and interactive web applications. With expertise in technologies like Next.js, React, JavaScript, HTML, CSS, and Python and etc, I enjoy creating user-friendly, visually appealing, and efficient digital experiences. I thrive on solving complex problems and constantly strive to expand my knowledge by exploring new technologies and contributing to open-source projects. Outside of coding, I am deeply interested in learning new skills, collaborating with other developers, and continuously improving my craft to stay ahead in the ever-evolving tech landscape. When I'm not coding, you can find me exploring new technologies or contributing to open-source projects. I am a passionate developer with experience in building web applications.

Education

- **Techno Main Salt Lake**   2023-2027
  BTech - CSE (AI & ML)
